Description of Incident (in claimant's own words):

"I was driving southbound on Route 1 toward my school when I stopped at the red light at the Parsonage Road intersection. I had been stopped for approximately 20-25 seconds when I felt a significant impact from behind. The vehicle behind me, a grey Toyota Camry, failed to stop in time and struck my rear bumper at what I estimate was 25-30 mph. The force of the impact pushed my car forward approximately 8 feet into the intersection. My neck immediately began to feel stiff and I felt pain in my lower back. I remained at the scene, called 911, and waited for the Edison Police Department to arrive. Two officers responded and filed a report. The driver of the other vehicle, a Mr. D. Patel, admitted to the officers that he had been looking at his phone. I was taken by ambulance to Robert Wood Johnson University Hospital for evaluation."
